trip-form.html	Trip builder form
trip.html	Trip view / shared trip
contact.html	Contact us page
about.html	About Itinera
help.html	Help center
403.html	Forbidden error screen
404.html	Not found error screen
500.html	Server error screen

2 • public/ — Legacy Marketing Site

23 pages

Pre-refactor copies of the root pages, served at **/public/***. Superseded by root set; **community.html** and **trip-preview.html** are unique to this area.

PAGE	DESCRIPTION
index.html	Legacy home with inline login / register forms
home.html	Legacy home variant
community.html	Traveler community hub
trip-preview.html	Shared trip preview
explore.html	Explore destinations
search.html	Search results
overview.html	Region overview
entity.html	Entity detail shell
destinations.html	Destinations catalog
destination-details.html	Destination detail
attractions.html	Attractions catalog
attraction-details.html	Attraction detail
hotels.html	Hotels catalog
hotel-details.html	Hotel detail
restaurants.html	Restaurants catalog
restaurant-details.html	Restaurant detail
flights.html	Flights search
flight-details.html	Flight detail
weather.html	Weather page
plans.html	Plans listing
plan-compare.html	Plans comparison
contact.html	Contact us
about.html	About page
help.html	Help center

3 • auth/ — Account & Social Login

7 pages

Minimal auth-nav bar, no site footer, no global navbar. Backed by **AuthController** + Google / Facebook OAuth.

PAGE	DESCRIPTION
login.html	Login — email/password, Google & Facebook buttons
register.html	Sign-up form (name, email, password)
forgot.html	Request password reset link
reset.html	Set new password with token
verify.html	Email verification notice

email-notice.html	"Check your inbox" post-register screen
complete-profile.html	OAuth completion — phone + profile fields

4 • app/ — Customer Area
29 pages

Authenticated travel planner. Session-guarded — unauthenticated users redirect to </auth/login.html>.

PAGE	DESCRIPTION
dashboard.html	Customer home — trips, quick actions
profile.html	Public profile view
profile-settings.html	Edit profile, address, preferences
trips.html	My trips list
trip.html	Trip detail
trip-form.html	Create / edit trip
trip-map.html	Trip map view
planner.html	Itinerary planner
itinerary.html	Day-by-day itinerary
availability.html	Availability checker
booking.html	Booking flow
flight-booking.html	Flight booking flow
bookings.html	My bookings list
payments.html	Payment methods
payment-history.html	Payment history
payment-success.html	Payment success confirmation
receipt.html	Receipt view
favourites.html	Saved favorites
notifications.html	Notifications inbox
chat.html	Concierge chat
copy-wizard.html	AI copy generation wizard
my-reviews.html	My reviews
report-agency.html	Report an agency
report-user.html	Report a user
surveys.html	Available surveys list
survey.html	Survey overview
survey-form.html	Fill survey
survey-create.html	Create survey
survey-answer.html	Survey answers view

5 • admin/ — Admin Panel

19 pages

Staff console — users, moderation, catalog CRUD, analytics.

PAGE	DESCRIPTION
index.html	Admin dashboard
analytics.html	Platform analytics
users.html	User management

PAGE	DESCRIPTION
index.html	Agency dashboard
create-trip.html	Create / publish trip
proposals.html	Trip proposals management
inquiries.html	Customer inquiries
earnings.html	Earnings & payouts
assignments.html	Agency assignments
settings.html	Agency settings

7 • Navigation Flow

overview

Auth guard: every page under **app/**, **admin/** and **agency/** redirects unauthenticated users to **/auth/login.html**.

Chrome: non-auth pages mount the unified footer + navbar; auth pages render a slim auth-nav only.

Totals: 120 HTML files = 116 pages + 2 partials (components/footer.html, components/navbar.html) + 2 scratch test files (scratch/_embed-test.html, scratch/preloader-hub.html). · Itinera — Team2 Conference Project · frontend/ fullstack · generated 2026-08-18
